

28-Day Emotional Support Animal (ESA)

At Prime Time Pups, our 28-day Emotional Support Animal (ESA) training and boarding program is designed to provide a structured and enriching experience for your furry friend. Here's a typical daily schedule for your dog during their stay:

Morning:

Breakfast time - Your dog will be served a nutritious meal tailored to their dietary needs.

Morning walk and potty break - We'll take your dog for a walk to allow them to relieve themselves and stretch their legs.

Training Sessions:

ESA training - Our experienced trainers will work one-on-one with your dog to develop specific ESA-related skills and behaviors. This may include recognizing anxiety or stress, providing comfort, and responding to cues for emotional support.

Mid-Morning:

Enrichment activities - Your dog will have access to stimulating toys, puzzle games, and interactive play to keep them mentally engaged.

Afternoon:

Nap and relaxation - After an active morning, your dog will have some downtime to rest and recharge.

Training Sessions:

Continued ESA training - The trainers will reinforce the ESA-related skills and behaviors learned in the morning session.

*Socialization and public training - We'll introduce your dog to different environments and scenarios to help them practice their ESA tasks in real-life situations.

Evening:

End-of-day activities - We'll engage your dog in calming activities to wind down and prepare for bedtime.

Dinner time - Your dog will enjoy another nutritious meal before the evening activities.

Nighttime walk and potty break - We'll take your dog for a leisurely walk before bedtime.

Throughout their stay, our staff will provide plenty of love, attention, and care to ensure your dog feels comfortable and safe during their ESA training and boarding experience. We'll closely monitor their progress and work with them individually to develop the necessary skills to become an effective Emotional Support Animal. We'll also keep you updated with the progress of their training with videos and pictures. Upon completion of training, we will equip you with the knowledge and skills to maintain our furry friends newfound skillset.

Please note that each dog's training program may be tailored to their specific needs and abilities. Our goal is to prepare your dog to be a supportive and reliable ESA, enhancing their bond with you and promoting emotional well-being for both of you.
