

10-Day Two Skills Boost

At Prime Time Pups, our Two Skills Boost package is designed to help your pup improve a couple things while ensuring they have a fulfilling and enjoyable experience. Here's an outline of what a typical day might look like for your furry friend during their stay:

Morning:

Breakfast time - Your pup will be served a nutritious meal according to their dietary needs and preferences.

Morning walk and potty break - We'll take your pup for a walk to relieve themselves and get some fresh air.

Training Sessions:

Two Skills training- Our experienced trainers will work with your pup one-on-one to teach the two commands that were selected. Positive reinforcement techniques will be used to ensure a fun and effective learning experience.

Mid-Morning:

Enrichment activities - Your pup will have access to stimulating toys, puzzle games, and interactive playtime to keep them mentally engaged.

Afternoon:

Group playtime - Your pup will socialize with other friendly dogs of similar size and temperament in supervised play sessions. This helps them practice their obedience skills in a social setting.

Rest and relaxation - After an active day, your pup will have some downtime to relax and recharge.

Training Sessions:

Continued Two Skills training - The trainers will reinforce the commands learned in the morning.

Evening:

Dinner time - Your pup will enjoy another nutritious meal before the evening activities.

Evening walk and potty break - We'll take your pup for a leisurely walk to wind down before bedtime.

Throughout their stay, our staff will provide plenty of love, attention, and care to ensure your pup feels comfortable and safe during their training and boarding experience. We'll also keep you updated with the progress of their training with videos and pictures. Upon completion of training, we will equip you with the knowledge and skills to maintain our furry friends newfound skillset.

The 10-Day Two Skills package at Prime Time Pups aims to improve your pup's skills and build a trusting bond between them and our team. Our priority is to help your pup become a well-behaved and happy member of your family!
